Join us for a Chit Chat Session

on 10 May 2024 (Friday), 2.30p.m. to 4p.m.

Contact us at 6844 1418 to register by 7 May 2024

The Canossian Education

Our Foundress, St Magdalene of Canossa

Established in 1941, Canossa Catholic Primary School (CCPS) is one of the educational institutions set up by the Religious Sisters of the Canossian Daughters of Charity in Singapore.

The Canossian Brand of Education emulates the work and spirit of our Foundress, St Magdalene of Canossa, in service to God and others. While a Catholic school by faith, it is inclusive and warmly embraces children of all faiths and races. In its emphasis on the Formation of the Heart, children are encouraged and affirmed in their personal growth as a child of God.

Where the Heart of Education
is the Education of the Heart

Applied Learning Programme

In the Applied Learning Programme, block-based coding is introduced progressively across all levels. Anchored on the theme of sustainability, students identify a problem, followed by the designing of possible solutions by applying concepts learnt from Science, Technology Engineering and Mathematics to construct their prototype.

Student Leadership Programme

With our dynamic Student Leadership Programme anchored on the beliefs of our Foundress, St Magdalene of Canossa, our students are challenged to realise their true leadership potential. Students develop an appreciation of our school values – Charity, Humility, Forgiveness and Faith and the 10 Canossian Principles. They acquire social emotional learning, communication and problem-solving skills so as to be empowered as advocates and change agents, committed to making a positive difference.

Life Skills Programme

Students at CCPS are given the opportunity to acquire and hone life skills and competencies. These life skills empower them in various ways, such as being responsible in making sound decisions, being amicable in building relationships and handling challenges.

heART & SOUL

heART & Soul is CCPS' distinctive art programme designed to shape and engage students in what they do through their art experiences in the curriculum as well as in the environment. These art experiences allow students to think out of the box and use uncommon materials to create art. They learn to see possibilities in everyday materials and creatively form new ideas.

Interest Week

During our annual Interest Week - *Discovering the Unique Me*, students are inspired to aspire. Modules on a variety of interest areas related to career pathways take our students on exciting journeys to discover their strengths and interests. Hands-on activities, learning journeys, and meetings with experts in the field provide them the opportunity to reflect on their aspirations, purpose in life as well as how to make the world a better place.

Important Information for 2025 intake
